WINEMAKING

Winemaking note

Fruit for our Rose was picked from our vineyards in April 2022. The juice was run off the skins early in order to extract only the perfect amount of colour and then inoculated and fermented cool. This allowed the retention of the summer berry characters, as well as retaining colour and intensity. Post fermentation the wine was fined, cold stabilised and filtered, ready for bottling. The entire process from juice to bottle was less than six weeks, keeping the wine fresh and vivacious.

Varietal composition 100% Grenache
